Revenue and Expenses

Revenue is reported as increases in unrestricted net assets unless their use is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. The Foundation reports donor-restricted contributions where restrictions are met in the same reporting period as changes in unrestricted net assets. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions and Grants

Contributions and grants are recognized as revenue in the period received. The Foundation considers all contributions and grants available for unrestricted use, unless specifically restricted by the donor or due in future periods, in which case they are recorded as temporarily restricted.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
